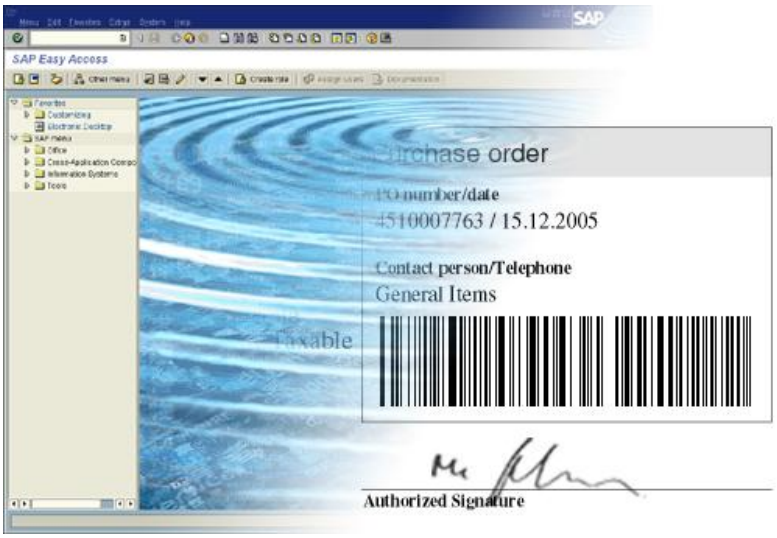
TBarCode/Direct

Bar Code Printing for SAP® without Middleware



SAP® Bar Code Printing without Middleware

For PostScript® compatible Printers
For 3rd Party OMS

Bar Code Printing for SAP® R/3®

TBarCode/Direct adds completely platform and printer independent bar code printing support to SAP® R/3® systems. This works without any piece of additional middleware with all PostScript® compatible printers and output management systems.

No Middleware, No Add-Ons

TBarCode/Direct is installed within SAP® R/3® and adds bar code printing functionality to all connected printers. Additional software, additional printer upgrades or additional ABAP™ components are void.

TBarCode/Direct is the ideal bar-coding solution without consuming any resources on application- or spool-servers. It is best suited for high-availability and/or performance critical output requirements.

Stable Solution

All output devices compatible with PostScript® Level 2 are supported seamlessly. Among them are printers, output management systems (OMS) and fax-solutions.

Archiving

The generated bar codes are embedded into the data-stream. No matter when and where archived documents are printed – bar codes are always integrated part of the document.

Initializing printers with additional tools is not required: *TBarCode/Direct* works even when switching printers off between print-jobs.

All linear Bar Codes

TBarCode/Direct supports all linear barcodes in common use. Check-digit calculation and human readable text output is included. The solution requires no ABAP™ programming, bar code parameters are adjusted by modifying print-controls only.

References and Test-Drive

Please contact TEC-IT for selected reference installations and a free test-drive.

Highlights

Hassle-Free Operation

- **Central Installation**
  TBarCode/Direct is installed only within SAP® R/3®. A single installation covers all PostScript® compatible output devices connected to the SAP® system.
- **Outstanding Stability**
  TBarCode/Direct generates bar codes without middleware. Bar codes are printed as long printers are on-line.
- **Performance**
  No ABAP is required. No resources are wasted.

Independence

- **No Middleware required**
  Server- or client operating systems are not relevant.
- **Printer independence**
  TBarCode/Direct works with all PostScript® Level 2 compatible output devices.
- **All linear Bar Codes**
  TBarCode/Direct supports all relevant linear bar codes symbologies.

Archiving

- **Bar Codes are part of the Document**
  Generated bar codes are always part of the printed documents - even when printing archived jobs on external printers.

Costs

- **Transparent Licensing Scheme**
  No user- or device related costs.

In World-Wide Use

- **References**
  Customer references are available on request.
